\$1000 Grocery Savings Coupons

There are 4 methods (Internet, fax, phone, mail*) for processing the grocery coupons. If you have access to the Internet, that will be the quickest method for receiving your grocery store coupons. Here's basically how it works by mail:

1. The Savings Certificate Package will include a grocery coupon book containing 100 Grocery Coupon Certificates (\$10.00 each for a total of \$1,000) with a unique authorization number printed on the back. These are NOT the coupons you use at the grocery store.
2. Complete the order form enclosed in the book, clip one of the \$10.00 Grocery Coupon Certificates, and select 48 products you regularly purchase. Send the completed form, one Grocery Coupon Certificate from the book, and a \$2.00 processing fee to the address indicated.
3. **You will receive your \$10.00 worth of manufacturer coupons from the list you have submitted... plus an additional quantity of coupons worth at least \$2.00 to offset the \$2.00 processing fee. You'll receive \$12.00 worth of coupons instead of \$10.00 worth of coupons.**

*Complete instructions for Internet, fax and phone processing will be included with the Savings Certificate package.
